WASHINGTON. June 4.—The senate had one of the busiest sessions of this congress today. Late in the day the filled cheese bill was passed as it came from the house, by a vote of \$1 to 13, thus completing the legislation on this subject. The measure is analogous to the obcomargarine law. The bill defines filled cheese to embrace "all substances made of milk or skimmed milk with the admixture of butter, animal oils or fats, vegetables or any other oils or compounds foreign to such milk and made in imitation or semblance of cheese."

Manufacturers of filled cheese are taxed \$400 annually; wholesale dealers, \$250; retail dealers, \$12. In addition to these taxes the product itself is taxed one cent per pound and imported filled cheese is taxed a cents per pound in addition to the import duty, it is provided that filled cheese with the conviviality and abandon of "our trip" he would have abstained from calling up reminiscences, however replete they were with joy and

An amendment by Mr. Stewart of Nevada for a tax of 10 cents per pound on wood was haid on the table, 22-14. Another amendment by Mr. Lindsay repealing the one-eighth differential duty on sugar was tabled, 31-16.
